in New York State  
under 6NYCRR Part 326

## **Aquathol® K Aquatic Herbicide**

EPA Registration No. 70506-176

EPA SLN No. NY-080004

New York State Department  
of Environmental Conservation  
Division of Materials Management  
Pesticide Product Registration

- "Day After Application" Swimming Restriction
- Additions to Treated Water Usage Parameters

DOC ID 544379

### *DIRECTIONS FOR USE*

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift.

- In order to allow for sufficient mixing of this product after application to bodies of water, swimming in the treated area is restricted until the day after application.
- For quiescent or slow moving water treatments: Waters treated with Aquathol K may be used for fishing, irrigating turf, ornamental plants and crops immediately after treatment. Do not use treated water for animal consumption within the following periods:
  - 0.5 ppm dipotassium salt – 7 days after application
  - 4.25 ppm dipotassium salt – 14 days after application
  - 5.0 ppm dipotassium salt – 25 days after applicationOR, until endotoxin levels are at or below MCL approved levels of 0.1ppm (100ppb)
- For flowing water treatments: Waters treated with Aquathol K may be used for fishing, livestock watering, irrigating turf, ornamental plants and crops immediately after treatment.
- Phytotoxicity is not expected on plants or crops irrigated with Aquathol K treated water, however, all species and cultivars (varieties) have not been tested.
- Undiluted Aquathol K may be injurious to crops, grass, ornamentals, and other foliage.
- Do not use Aquathol K treated water for chemigations as interactions between Aquathol K and other pesticides and fertilizers are not known.
- Do not use Aquathol K in brackish or saltwater.
- Wash out spray equipment with water after each operation.
- Avoid contact of spray concentrate (product) directly or by drift with non-target plants or crops as injury may result.
- United Phosphorus, Inc. recommends not reducing Aquathol K rates below those specified within this label, when using Aquathol K in a treatment combination, or as a tank mix, with product(s) contacting ALS inhibitor active ingredients, unless specified otherwise on this label or a United Phosphorus, Inc. supplemental label.
- Note: This labeling must be sold with product and be in the possession of the user at the time of application. Follow all applicable directions, restrictions and precautions on container labeling.
